EDUCATION:

University of Florida, FL, USA
Master of Science in Computer Science

August 2022 – May 2024
GPA: 3.83

Mumbai University, Mumbai, India
Bachelor of Technology in Computer Engineering

August 2016 – October 2020
GPA: 3.33

SKILLS AND CERTIFICATIONS:

Languages: Python, SQL, JavaScript, PHP, Dart, Java, GraphQL, Erlang

Web Development Technologies and Databases: React, Node, Typescript, Spring Boot, Docker, Laravel, Django, Express.JS, Angular.JS, MongoDB, Firebase

Cloud and Infrastructure: AWS, Kubernetes, Docker

Tools and Frameworks: Apache Kafka, Flask, Logstash, Kibana

Certifications: JavaScript Essentials, Full Stack Development

PROFESSIONAL EXPERIENCE:

Web Application Developer, Media.net, Mumbai, India

January 2022 – July 2022

- Spearheaded and managed API proxy service to manage access and reduce page load time by 50%.
- Implemented 7 data pipelines using Spring framework, improving dataflow efficiency by 20%.
- Devised 3 logging infrastructures visualized using Apache Kafka to increase data availability and integrity by 25%.
- Modified ad pixel tracking workflow using Logstash, resulting in a 20% increase in revenue.
- Designed interactive dashboards in Kibana to visualize data and generate insights for decision-making.
- Configured and updated 4 Kubernetes clusters for APIs and backend servers, enhancing load balancing.
- Architected efficient, scalable services paired with well-designed UI as part of cross-functional projects.

Associate Web Developer, Media.net, Mumbai, India

January 2021 – December 2021

- Migrated CakePHP infrastructure from singleton design pattern to factory pattern, reducing website load time by 500ms and increasing revenue by 10%.
- Managed PHP server architecture that served 700+ websites simultaneously.
- Added new functionalities to internal ad dashboard made in React.JS, creating 5 new workflows.
- Coordinated dataflow and system architecture development to serve WordPress and CakePHP websites from the same backend.
- Led cross-functional projects, coordinating with product and design teams to deliver robust solutions.

Full Stack Intern, Halara Labs Pvt Ltd, Mumbai, India

June 2020 – July 2020

- Conducted mobile application development in Flutter for online games application Play Hatke.
- Developed 3 functional pages for player ranking, user profile and in-app wallet and incorporated 2 mini-games.
- Engineered 15 server-side APIs in NodeJS for the corresponding pages and mini-games.

Android Development Intern, K J Somaiya College of Engineering, Mumbai, India

June 2019 – July 2019

- Led a team of 3 to develop an application that benefits 15% of the differently abled population.
- Created Android Application for color-blind people to assist in selecting their daily outfits.
- Deployed a Python API to analyze camera images and identify the predominant color from a dataset of 150 colors, and presented this work at the National Conference on Disability, Accessibility, Inclusion, and Well-being 2019.

ACADEMIC PROJECTS:

Beam (NodeJS, Express, Firestore, EJS, jQuery)

- Created a Chrome extension to share video streaming accounts without giving out the passwords.
- Successfully works across three major OTT platforms: Amazon Prime Video, Netflix, and Voot.

Travnal (NodeJS, EJS, MongoDB, CSS, JavaScript)

- Incorporated a social media website tailor-made for travelers with an intuitive user flow.
- Collaborated effectively despite no prior experience with node.js, demonstrating rapid skill acquisition.
- Optimized data storage and retrieval for a scalable, user-friendly social media platform.
