BASIC	Angular, C, GraphQL, Firebase, EJS

PAPER PRESENTATIONS

- **Smart Locking System** at Vidyavardhini's National Conference 2020 "Technical Advancements for Social Upliftments"

- **Colour Detection and Outfit Planning application for colourblind people** at National Conference on Disability, Accessibility, Inclusion and Well-being 2019

PROJECTS

Beam

- Chrome Extension to share your streaming accounts with your friends without giving out your passwords
- **Tech Stack:** Javascript, Firestore, Express, NodeJS, EJS, JQuery

Smart Locking System

- Smart lock for homes implementing Near Sound Data Transfer as its chief aspect. This was my Final Year project at K J Somaiya College of Engineering.
- **Tech Stack:** Flutter, Python, Chirp Firebase (Firestore, Cloud Functions)

Outfit Planner

- Android application to assist color blind people in selecting their daily outfit.
- **Tech Stack:** Android (Java); Heroku; Python- Flask, Webcolors

Travnal

- Social Media and travelers are something that goes a long way together. So rather than travelers adjusting their content for social media. We decided to build social media tailor made for their needs.
- **Tech Stack:** EJS, NodeJS, MongoDB, CSS, JavaScript

Expense Manager

- Expense manager for an individual as well as for group expenses. Major feature was using OCR to get the bill amount and restaurant name. Worked on this during KJSCE HACK 2019.
- **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL

INVOLVEMENT

- Literary Affairs Co-Chief at **KJSCE Illuminati** 2018
- Joint Social Media Head for **Maker Mela** 2018
- Goju Ryu Karate Brown-III from **Academy of Self Defence, Mumbai**

HOBBIES

- Reading, cooking, running, swimming
